Welcome to the Two Rivers Public Schools

As usual, it has been a busy summer for the Two Rivers School District. Lisa Quistorf has assumed the full-time position of Assistant Superintendent as she makes the transition to being the next Superintendent for the Two Rivers School District. Ms. Quistorf is currently in charge of curriculum and responsible for the implementation of the new teacher and principal evaluation model required by the Department of Public Instruction. Randy Fredrikson, working part-time, continues to be the superintendent until the transition is made in the future.

The summer work in the district has focused on the preparation for the Effective Educator Model school districts are required to have in place beginning this school year. Teachers and principals have been going through training the past school year and will continue the process as the new school year begins. Ms. Quistorf has been working closely with CESA 6 as the district is implementing the CESA 6 model approved by the Department of Public Instruction. Teachers will now be evaluated based on student achievement results, student learning objectives (SLO), preapproved professional goals, and instructional methods used in the classroom.

Summer work for the district has also included a data retreat where approximately 35 teachers and principals worked together to identify weaknesses and strengths in the district programs across all grades. Each building looked at the needs of its students and put together action plans to address learning gaps or needs.

Our maintenance department continues to work hard to keep our facilities updated and clean. Under the direction of the School Board's facility committee, the district is planning on addressing boiler needs at Magee Elementary and L. B. Clarke Middle School. Boilers in both facilities are original dating back to the 1960's. Upgrades are needed for both function and efficiency. The State Legislators have put in a program for districts to receive a revenue cap exemption for energy upgrades, and the district is looking at using the program. The district, as required by law, has hired a performance contractor and engineer to ensure that program requirements are met and energy enhancements are implemented.

With Labor Day being early this year, school will start September 2nd. The district is anxious to get all the final preparations in place and start the 2014-15 school year strong.

Enjoy the rest of your summer!

Together with Manitowoc Public School District we have co-developed The Lighthouse Learning Academy. This program is to assist families that are currently open enrolled out of our district for home-schooling or virtual schooling at home. Our quest is to meet the growing needs of our families in Two Rivers and help build our student population for the district, thereby keeping our dollars right here in Two Rivers. The Lighthouse Learning Academy is operated as part of the Two Rivers Public School District and provides families with an educational option that they can access from home along with access to district resources under the support of licensed educational professionals. Annual Asbestos Notice: As a result of recent federal legislation (Asbestos Hazard Emergency Response Act—AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Two Rivers School District has a goal to be in full compliance with this law and is following the spirit, as well as the letter, of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees. In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Two Rivers School District were inspected by EPA-accredited inspectors, and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared and the state approved a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Two Rivers School District has completed the Three-Year Re-Inspection required by AHERA. Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. In addition, the law requires all buildings to be re-inspected three years after a management plan is in effect. Endpoint Solutions will accomplish this under contract. Short-term workers (outside contracts: i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the lead maintenance person before commencing work to be given this information. The Two Rivers School District has a list of the locations and types of asbestos-containing materials found in the school buildings and a description and timetable for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to Endpoint Solutions, Hales Corners, WI 53130, (414) 858-1203, or by contacting Two Rivers Schools at (920) 793-4560.

Applications for Free and Reduced Lunch will be sent home with the students during the first week of school. If you feel you may qualify for Free or Reduced Lunch, please complete the form (one form per family) and return it to school as soon as possible. Families that receive AFDC or food stamps must fill out the application with their food stamp number. These families will be mailed a verification letter from the school district in early September. If you do not receive a verification letter and receive AFDC or food stamps, please call Paula Erickson or Kris Parma at 793-7172.

The district utilizes an automated lunch account system in which each person has a computer generated card with their name on it. When a meal is "purchased", the card is scanned with a light wand and the sale is entered into the computer. The price of the meal is then deducted from the family account. Family accounts are set up with the responsible parent or guardian listed as the head of the household and all dependents listed under the same family account. Lunch payments can be sent with your child to school or mailed to L.B. Clarke School. Prepayments may be done weekly or monthly. There is no need to send money with each child since all payments go into the family account. Please have visible on the payment envelope the name of the head of the household, the student's names, and the dollar amount enclosed.

Parents/guardians of students who are down to a zero balance or more will be contacted twice a week by phone and will not be served breakfast or hot lunch until the balance is paid in full. Please contact Paula Erickson or Kris Parma at 793-7172, if you have any questions concerning your food service account balance.
