

To set up voice mail:

1. Lift the receiver
2. Dial 77
3. For the security code, if you have not changed it from the default, enter “1111”.
4. Follow all the prompts for the set up.
5. Make sure that you go completely through the set up. At the end the system will ask you if you want to accept the changes. If you hang up before accepting the changes, all your changes will be discarded and you will have to repeat the set up.
