

2019-2020

Two Rivers Public School District Board Goals

Student Achievement Goal - All K-12 students will meet or exceed expected growth levels on district assessments.

Professional Practice Goal - The District and staff will become a Professional Learning Community (PLC) in order to establish a system of support that ensures high levels of learning for each and every student...no exceptions. Staff will commit to working interdependently in collaborative teams to achieve common goals for which members are mutually accountable. Collaborative teams will clarify the essential learnings for each course, grade level, and unit of instruction; establish consistent pacing; create frequent common assessments to monitor student learning, and establish common criteria to assess student attainment of standards.

Raider Pride Goal - Staff and students will demonstrate Raider Pride by implementing practices and strategies of Kids at Hope as a means to build relationships and empower students to achieve their full potential. We will demonstrate our Raider Pride by taking care of ourselves, by taking care of each other and by taking care of this place.

Facility Goal - Facility Committee will continue to develop, refine and address our 10-year long-range plan for district needs.
