

**Today, you will be using similarities and differences to show what you understand about the different diseases. We will be sharing these items at the end. You are each to produce:**

- 1. Write three separate analogies.**
- 2. Write three Metaphors.**
- 3. Compare three different diseases, showing similarities and differences.**
- 4. Classify all the diseases using any method you would like.**

**One of the above must be represented in a graphic manner. Example: picture, diagram, graphic organizer.**
