

# Parasitology

Website: DPD - Division of Parasitic Diseases (Centers for Disease Control) --  
<http://www.dpd.cdc.gov/DPDx/>

Click on the link that says "Parasites and Parasitic Diseases".

Instructions: For each parasite you will need to read the text and analyze the graphic to fill out the chart. Note the links at the top [ causal agent | Life cycle | geographic distribution | Clinical Features | Laboratory Diagnosis | Treatment ]

Name of Disease	Common Name (if any)	Name of parasite(s) that causes it	Intermediate or Vector (if any)	How do you get it?	Where in the world	Symptoms
<b>Parasites of the Intestinal Tract</b>						
Amebiasis						
Cryptosporidiosis						
Hookworm						
Ascariasis						
Fascioliasis						
Enterobiasis						
Schistosomiasis						
Taeniasis						
<b>Blood-Borne Parasites</b>						
Trypanosomiasis (American)						
Trypanosomiasis (African)						

Malaria						
Filariasis						

Parasites Found in Other Sites						
Dracunculiasis						
Head Lice						
Leishmaniasis						
Trichinellosis						
Scabies						

Draw sketches of the different organisms.

American Trypanosomiasis	Ancylostoma (hookworm)	Entamoeba histolytica (amebiasis)
Ascaris	Filariasis	Leishmania
Lice	Plasmodium (Malaria)	Pinworms
Schistosoma	Taenia	Trichinella
